DETAILED ACTION

Claim Objections

1. Claims 1-39 are objected to because of the following informalities: Claims 1-39 are withdrawn by Applicants and should be canceled in response to this action. Appropriate correction is required.

Allowable Subject Matter

2. Claims 40-49 are allowed.

3. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a). As stated above.

4. The following is an examiner's statement of reasons for allowance: Claims 40-49 are allowed over the prior art of record. Current invention teaches a rotary tap changer comprising a gear that is engaged by as well as driven by the drive shaft, a first set of movable contacts coupled to the gear and a transmission device coupled to a motor output device and to a drive sprocket. Such claimed structure, in combination with claimed limitations of claim 40, are neither disclosed nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see the attached PTO-892.
